ONLINE FDTP on CS8082 - Machine Learning Techniques

07.06.2021 - 12.06.2021

The Department of Electronics and Communication Engineering, Sri Sairam Engineering College, organized a Six day Online Faculty development programme, sponsored by Center for Faculty Development, Anna University, on CS8082 - Machine Learning Techniques from 07 June 2021 to 12 June 2021. The coordinators for the FDTP were Ms A R Rajini and Ms K Subhashini. The FDTP was organized as per the guidelines stated by CFD, Anna University.

The syllabus for the subject, as per the Regulation 2017 was handled during the FDTP. the syllabus was covered in 19 sessions and OBE was dealt with in 1 session by Dr P Malliga from NITTTR, Chennai. 19 Resource persons were from other reputed institutions or from Industries. 15 out of 20 (75%) of the resource persons identified while submitting the proposal accepted and presented the lecture on the topics assigned as per the schedule. 5 resource persons (25%) were unable to present the session due to the prevailing pandemic situation.

Dr J Raja, HoD - ECE & Dean - Academics welcomed the gathering and Dr A Rajendra Prasad, Principal Sri Sairam Engineering College inaugurated the event. The Resource persons and the topics covered by them is as follows. In addition to the topics as per the syllabus, the resource persons also guided the participants for project / research work in the field of Machine Learning Techniques. Demonstrations based on COLAB, MATLAB were also done by the resource persons.

On day 6, a test was conducted, the questions and the marks enclosed. The participants presented and discussed the topics covered during the previous 5 days sessions. The answers were discussed in the last session.

We thank CFD, Anna University for granting permission and sponsoring the event.
